Everything is always impossible
Before you actually succeed.
'Impossible is just an opinion'
Make this your undying creed!

Believe your life is worth living.
It will help you create that fact.
Sometimes things have to be believed
To be seen... and have an impact.

Never let what you cannot do
Interfere with what you can.
It's impossible for you to fail
If you believe and follow your plan.

Your faith is the daring of your soul
To go farther than it can see.
Every day, miracles are possible.
With that, you must agree.

It's not who we are that limits us,
But who we think we're not.
Luck is believing you're lucky.
So, give it your best shot!
