

KINDNESS

Kind words can be short and easy to speak.
But their echoes are truly endless.
Kindness doesn't have any boundaries.
And with it you'll never be friendless.

Plato suggested, on the importance of kindness,
That people you meet might be needing a smile.
Assuming that everyone you meet is fighting a battle.
It's better to reach out to go the extra mile.

Tenderness and Kindness, not signs of weakness,
Are the embodiment of strength and resolution.
Never lose a chance to share a kind word.
It's everything to someone. Make it your contribution.

Courage. Kindness. Friendship. Character.
These qualities define us as human creatures.
On occasion they can propel us to greatness.
Keep kindness, my dears, as one of your features.

When you know yourself to be connected to all,
Acting with kindness is a natural thing to do.
Love grows only by sharing it with others.
It's never wasted when it comes through you.

Kindness is a language blind and deaf can understand.
In action it's a thrill to behold.
The most difficult thing to give away is kindness.
For it is usually returned tenfold.
