

YOURSELF

What's in you is the answer to your problems.
The solution has to come from within.
You hold all the answers regarding your path.
Listen to yourself and you will win.

Others outside can listen and advise.
But a solution they cannot give you.
You must see it through all the way by yourself.
And with courage you will come shining through.

It is important to become and to be
Than to get and possess things galore.
What you carry inside will take you farther
Than what carries you to the door.

The mind is a powerful thing, as you know.
It can build barriers, and demolish them, too.
What happens to you in your life will be
A result of what's inside of you.

The story is about you, and you are the author. It's a continuing
script for your screenplay.
You direct it and edit it and present it to the world.
You're in charge of your life all the way.

The entire world is affected by what you are.
And what you are lies inside your mind.
You hold the key to unraveling it all.
As you make yours the truth that you find.
